JAPS ATTACK U. S.

CONGRESS DECLARES WAR

Without warning, and while their ambassadors in Washington were pretending to negotiate for peaceful settlement of differences between Japan and the United States, the Japanese Sunday attacked American and British territory at widely separated points in the Pacific ocean.

Most serious attack on the United States was that at Pearl Harbor and Honolulu, Hawaii, where U. S. authorities have admitted the loss of one battleship and damage to several others, and Japan has claimed the reduction of the fleet to less than the naval strength of Japan.

In an address Tuesday night, President Roosevelt warned that we should be prepared for the loss of the islands of Guam, Wake, and Midway, which have been under Japanese attack.

The Japanese are also attacking the Philippine Islands and, according to reports, have succeeded in effecting a landing of troops.

On Monday afternoon President Roosevelt went before congress and asked for a formal declaration of the war so treacherously started by Japan on Sunday. The war declaration was voted unanimously by the senate and with only one dissenting vote in the house of representatives. This being America, the woman from Montana who voted no has not been shot, as she would have been in Japan or Germany. She will not even be locked up unless she becomes violent.

Even Wheeler, Hoover, and Lindbergh made public statements supporting American resistance to Japanese aggression, altho their statements did not sound very enthusiastic or patriotic to this writer.

Yesterday two of Britain's biggest battleships were sunk by Japanese air attacks.

Al raid alarms have been sounded on both the Atlantic and Pacific coasts. Enemy planes were actually seen off the California coast.

It is plain that in this war Japan, like Italy, is only Hitler's tool. An attack in the Atlantic may be expected at any moment.

Hitler's land armies have now been fought to a standstill in Russia and North Africa. Heretofore Germany has been weak on the sea. Japan now claims superiority in the Pacific. This claim is probably false, but the French fleet will soon be, if it is not already, in German hands, which will bring axis strength in the Atlantic near that of the U. S. and Britain. With both Germany and Japan apparently still dominant in the air, we are in for a grim struggle.

If Japan, Germany, and Italy form one gang of international outlaws, the United States is far from alone in the fight for freedom. Great Britain, having faster time than we have, declared war on Japan even before we did. Most of the Central and South American nations have either joined the war on our side or have declared their intention of doing so. Russia, of course, is still fighting the Germans and probably will join soon in the fight against Japan. But most of our allies are largely dependent on us for modern weapons of war and, thanks to isolationism, we are still poorly prepared to make them in the quantities needed.

LADIES' AID MEETS

The Ladies Aid of Cannel City Union church held its regular business meeting at the home of Mrs. W. T. Stamper Dec. 4.

The meeting was opened by singing "Silent Night." Mrs. J. D. Whiteaker was in charge of the devotional reading, Luke 2:1-20, and then offered prayer. Another song was sung, "It Came Upon the Midnight Clear."

Mrs. Stamper read a very beautiful poem, "Take Time," which was enjoyed by all. Mrs. Whiteaker also read a beautiful poem, "There Will Be Christmas."

After the roll call and reading of the minutes, Brother Clay gave an inspiring and heart searching talk on the need of the individual and the Christian church. His outline was taken from Isaiah 68, showing us the beautiful and useful life we could live if we would only take more time for prayer and meditation. The prayer life was so beautifully pictured that we were made to cry out in our soul, "Here am I, send me."

Then Bro. Clay offered prayer, "More Like the Master" was sung. Mrs. Clay dismissed with prayer.

The hostess, assisted by Mrs. M. H. Ferguson and Miss Gladys Benton, served delicious refreshments of sandwiches, olives, cakes, tea, and coffee, to the following members: Rev. and Mrs. Kenneth Clay, Mrs. Arnold Patrick, Mrs. M. H. Ferguson, Mrs. L. C. Terrell, Mrs. Velmor Benton, Miss Gladys Benton, Mrs. Lonnie Patrick, Mrs. J. W. Benton, Mrs. W. T. Stamper, Mrs. J. D. Whiteaker, and Mrs. L. O. Donovan.

Mrs. Stamper is a charming hostess and we hope to meet with her again soon. After a pleasant afternoon we adjourned to meet with Mrs. J. D. Whiteaker on Dec. 18.

Customer—Yes, but I had seen so many signs hung up around here announcing that the house was being painted.

MORE FOOD PLANS

When a family keeps a record book and carries on farming like business men carry on their business, then it isn't difficult to increase production. Approximately 400 farm families in Morgan county will operate their farms during the next crop year in accordance with definitely planned farm and home practices. These are the families who are borrowers in the farm security administration program, Prichard Caskey, supervisor of FSA in Morgan county, reports they are all increasing their production of foods in the food-for-freedom program.

Those who have taken part in the rehabilitation program under the U. S. department of agriculture long enough to have worked out plans in previous years, now have their farm record books to help them plan for future operations. He pointed out that farm families in the farm security rehabilitation program make careful plans first, and that the loans are made then to put the plans into effect. FSA, in making the loans, stresses the importance of farm and home records and planning.

Many of the families are now making their plans for the coming year. The services of the county supervisor and the home management supervisor are available to aid in formulating plans.

According to most farm plans now being worked out, farm production next season will lean toward more milk, milk products, better home gardens, eggs, and meat for home butchering. In line with the food for freedom program, Mr. Caskey said. This sort of production has been encouraged by the FSA for some years, and most borrowers now are replacing "one cash crop" farming with diversification.

In 1940 the average standard FSA borrower in Kentucky produced \$370 worth of goods for home use, but in the year prior to drawing their first farm plans in connection with FSA loans those same families averaged only \$290 worth of such production.

Virtually without exception, Mr. Caskey believes FSA borrowers can be counted upon to plan their farm to increase the output of items called for in national defense. It will continue to be the policy to produce for home use first; and this will tend to leave commercial production, on the other hand, to those who are not borrowers' farms as well as others. It is to be hoped that the plan eventually will lead to feeding our armed forces as well as those of our allies.

RED CROSS APPEAL

Washington, D. C., December 9

Roscoe Brong, chairman Morgan county chapter American Red Cross

Again the American Red Cross is called upon to serve our nation in war, both nationally and locally. We face vast and definite responsibilities for services to our armed forces and for relief to distressed civilians. To provide essential funds Red Cross today is launching a campaign for war funds of a minimum of fifty million dollars. The president will issue on Friday a proclamation supporting this appeal. Your chapter quota is fifteen hundred dollars. Chapters should make their collections for local war relief expenditures. Chapters should at once devote full effort to raising their quotas in short as possible time. Please report action taken. We must and shall not fail.

NORMAN H. DAVIS

TO EX-SERVICE MEN

West Liberty, Ky., Dec. 8, 1941

To the ex-service men:

We had our regular monthly meeting Saturday, Dec. 6, 1941. We did not have a large crowd but several paid their 1942 dues and our next meeting is the first Saturday in January, or Jan. 3, 1942, and will be the first meeting of the new year. It will be held in the court house and all members are urged to bring some ex-service men with you as we want to get every one in the Legion that we possibly can.

We are in a shooting war now, Japan having attacked the U. S. army base at Honolulu and other points in the east, and before this is printed we will have officially gone to war with Japan, which no doubt will mean that we will have a long war. There are many things that we as ex-service men can do and will be called on to do, and I want every Legionnaire 100 percent in line to help in any way we can. I am

WILLIAMS JOINS MARINES

Louisville, Ky., Dec. 6.—Ellis Williams, son of Mrs. Lillie Pieratt of Maytown, was this date at Louisville voluntarily enlisted in the U. S. marine corps.

Among numerous young men of Morgan county now answering the marines' call for volunteers, young Williams departed Louisville the same date of his enlistment, accompanied by a camp mate from the CCC camp at Danville, where both boys were CCC enrollees. After the usual prescribed 6 week training course at the marine base in South Carolina, Williams will be graduated a full-fledged marine, qualified to begin the many and varied duties of the marine corps.

U. S. marines serve ashore and afloat with the fleet, at several sea stations all over the world. Both boys will in all likelihood visit various of these far-flung stations of the corps during the terms of their enlistments.

Both applied for enlistment at the U. S. marine corps headquarters for Kentucky at 1412 Bryburn Building, Louisville.

An Idea or Two

Words won't win war.

This is really a World war.

Japs showed up appeasement saps.

"They say" has ruined many lives.

It's always easier to find fault than to attain perfection.

The necessities of war provide no excuse for hateful hearts.

The Courier can save you money on your magazine subscriptions.

One way to help defeat Japan is to be a good citizen of West Liberty.

Hoover, Hitler, and Limburger still agree that Roosevelt is to blame for all our troubles.

A gift subscription to the Courier is a weekly but mighty reminder of the giver's friendship.

If the Courier is worth borrowing from your neighbor, it is worth buying from the publisher.

Popular notions to the contrary notwithstanding, education and a college degree are not the same thing.

Our soldiers and sailors need the services of the Red Cross, and the Red Cross needs your help to perform these services.

Our stock of Gillette razors at 1c each with yearly subscriptions in Morgan county, is going fast, but we still have some for those who act promptly.

Most Morgan countians would naturally prefer to do their shopping near home, but they need a little encouragement from our local merchants.

In the past we have been thankful that West Liberty is a growing town; now we are especially thankful that we have not grown big enough to become a military objective.

What features in the Courier do you like best? We try to print what we think most of our subscribers want to read, but we will know better what you want if you tell us.

Now that our national debt must be increased almost beyond imagination to win the war, it would seem more important than ever that local governmental units live within their incomes.

Germany and Japan are the world's outstanding practitioners of the modern educational theory that the pupil has an inherent right to complete self-expression regardless of the rights of others. They have learned the lesson better than their teachers.

Maybe our Hawaiian forces were too careless and partly to blame for their severe loss, but the dolts who have been telling us that America was not in danger are not exactly the persons we want to hear criticizing the men who are fighting and dying for our defense.

Some "experts" have assured us that Japan would be a pushover. They have been proved wrong. Others have warned us that we are too weak to fight and should have surrendered to the Hitlerites without argument. Ordinary Americans, not pretending to know what lies ahead, are resolved to live free if they can, to die free if they must, but to submit to slavery never.

WE MUST ALL HELP

Caney, Ky., Dec. 9, 1941

Editor Courier: Since Sunday afternoon, when word reached us of Japan's action, war talk has been circulating everywhere. And now I'm wondering if we will be as patriotic as we are talkative.

Morgan county has several boys now in training in various places. They are doing their share to help defend our civil liberties and to make our nation a free and safe place to live. But what are we who are not in military service doing? We must contribute our little mite to this great cause for which our armed forces are fighting. There is something each of us can and must do. If we cannot help financially or through some source of defense work, we can speak a word of encouragement to those of our citizens in uniform, and to the parents who have given up the presence of their sons that we may remain free.

Every effort that we make helps to build the morale of the boys in military service.

Each citizen must invest something in this war that will help us to gain a victory, and in the end that investment will produce the freedom that we democratic people are striving to keep.

THANKS

Editor Courier: Please find enclosed \$3.00 and two yearly subscription blanks filled out, one for me and one for R. M. Lykins, Caney, Ky.

I sure do enjoy my home town paper very much, and think it is a great paper. I would not give it for any other paper in the U. S. A., as the Courier keeps the news flying all over the U. S. A., and real news it is when you see it in the Courier. The Courier is my best friend, and I read it from beginning to end every week. I wish you many more happy readers for 1942. I am a 100 percent booster for the Courier. My father, R. M. Lykins of Caney, is also a great booster for the Licking Valley Courier. I also have many friends who enjoy the Courier.

Respectfully yours,

"PROGRESS"

West Liberty, Ky., Dec. 9, 1941

Editor Courier: I noticed in last week's paper a political plug for Ova O. Hancy, praising him for the "good work" and "progress" in Morgan county schools. But "Taxpayer" has the situation sized up about right. Only a few years ago there was a big complaint because a former superintendent had one assistant in his office; now we have lost count of the number hanging around Mr. Hancy's office. We sure are making progress in spending the taxpayers' money to make sure that the gang now in power will continue to run our schools.

PHOOEY

HISTORY IN THE MAKING

Yocum, Ky., Dec. 8, 1941

Editor Courier: Shortly after Japan bombed Pearl Harbor, an editorial in a western paper ran something like this: "The insignia of the Japanese is the rising sun; before long it will be the setting sun." The editorial was right, and our freedom depends upon carrying out that statement.

It must surely have been more of ignorance than belief that prompted the Japanese attack on the U. S. We Americans have been waiting breathlessly for quite a while—now it has happened. We are at war! For the first time American cities have known the horror of "blackouts." This war is in the air and on the sea, but we are prepared for it.

We have wanted peace; we have not wanted war. But since war has come, let's meet it with all faith, all hope, all courage, and all completeness. The fact that our freedom is threatened directly has stirred our nation to complete unity in that one great cause. We will fight because we must keep our freedom, for without freedom life for us would lose its meaning.

This war will test our strength and courage as a democracy. I have no fear that we won't meet the challenge with every ounce of the bravery that has made us what we are.

Lives will be lost, families will be homeless, cities will be bombed and burned, but it has to be. There is no other choice. Our freedom is at stake. Japan has raised a bloody sword out of the Pacific and has struck at the heart of a peace-loving nation. We have been great in peace; now we must show the world that we can be equally as great in war.

Not Worth the Trouble
"Heah, Rastus, is that quarter I borrowed from you two years ago?"
"Yal might jus' as well keep yo' money. It ain't wuth two bits for me to change mah opinion of you."

May He?

"You remember when you cured my rheumatism, doctor, a couple of years ago and told me to avoid moisture?"
"Doctor, my a'ch is right!"
"Well, I told you to avoid moisture if I may take a bath."

NATIONAL DEFENSE TRAINING

National defense classes for out-of-school youth are making progress under the supervision of the Morgan county board of education and Supt. Ova O. Haney.

There are at present classes in metal working, being taught by Warren Peyton in the Morgan county high school, a course in elementary electricity or practical house wiring being taught by A. C. Elkins at the Cannel City high school, and a class in woodworking being taught by Glenn Carr in the manual training shop of the Ezel high school.

Classes were taught last year in auto mechanics, metal working, elementary electricity, and woodworking. A survey shows that most all of the boys who took the courses are employed or are going to school at the present time.

A course in auto mechanics will begin January 5, 1942, at the Morgan county high school, West Liberty. The courses in electricity and woodworking will continue if interest enough is shown in the other schools. The purpose of these classes is to teach these young men to be able to see and be able to solve real problems facing real American people. Part of these men will remain here and others will secure employment in other centers.

Any farmer who has farm machinery which is in need of repair is requested to bring his machinery in and have it repaired. This can be done by the class without any cost to the farmer. Since machinery of all kinds is going to be harder and in most cases impossible to secure during the national emergency, farmers should strive more than ever to have their machinery repaired now. Do not wait until you need it to get it fixed. Since labor will be harder to secure you will need to use more machinery. These young men will be glad to weld and repair your tool if you will see me or Warren Peyton and make arrangements to get this done. Farmers are being asked to aid in the "food for freedom campaign" by cooperating in helping to produce more food.

These classes are practical classes, last for eight weeks, meet three hours for five days each week. If we can help you won't you please cooperate by bringing in your tools to have repaired now. The first come will be the first served.—ROY NICKELL, supervisor national defense training classes and teach vocational agriculture, Morgan county high school.
